

Omega 6 – 6W 100V Round Fast Fit

The Omega 6 is a 6 watt rms ceiling loudspeaker with a smooth frequency response for quality sound reproduction. It is ideal for offices, factories and other rooms with suspended ceilings. The speaker's steel, slim-profile grille is finished in matt white. The Omega 6 can be used on 100 volt line Public Address systems and has power tapplings down to ½ watt. It comes with a first-fix support bridge to make installation simple and easy. The Omega 6 is also available in a Voice Alarm version (Omega 6VA) with ceramic terminal block, dc blocking capacitor and thermal fuse.
